

**IMPORTANT MESSAGE FOR ALL OWNERS AND RESIDENTS OF  
WATERSIDE VILLAGE “SHARING PROJECT”**

For approximately 10 years, our community has held a fundraising initiative in order to assist the neighborhood school **Rolling Green** where many underprivileged children are students. The school requires financial assistance to provide students with developmental tools that are available in many other schools. Each year, we have collected an average of \$12,000.00 and we maintain the same **objective**.

*Our initiative has assisted these neighborhood children by offering the following:*

- *Musical instruments and related classes*
- *Equipment for a computer room (iPads and computer screens)*
- *Books that are reading aides*
- *Lunches for the most underprivileged students*

**We have made a difference** and our involvement is greatly appreciated. We have shown ourselves to be much more than simply privileged neighbors seeking sunshine and warmth in *their* community. We have actively demonstrated our solidarity with both the local residents and their children who pass in front of our barriers every day. They now have a greater appreciation of their “wealthy neighbors”. *Please continue to be supportive of these children and, once again, give generously to the Sharing Project.*

This year, the school administration has made us aware of the urgent need to assist the large number of children who have limited or no fluency in the English language, with the consequences in terms of learning that you can easily imagine. This new program of assistance will require an **investment of \$12,000.00**.
